

About FHF

The FHF association is a national association grounded in 1918 with the purpose to maintain and develop the breed of the royal danish frederiksborghorse. FHF consists of an executive committee of members of the association elected at the annual general meeting in february. Committees of breeding, PR, activities, referees consists of volunteering members and other people who shares the passion of the frederiksborghorse. These people and the executive committee are also indispensable when arranging and planning activities such as selections and competitions.

Membership

As a member of the FHF, you will become a part of a fantastic community where the passion and love for the frederiksborghorse is the key factor and where your diciplin and background is of secondary importance. As a member of the FHF, you have the opportunity to participate in association activities and to participate in breeding selections to get an assessment on your horse(es). You will also recieve reports from board meetings and newsletters (in danish)

FREDERIKSBORG
HESTEAVLSFORENINGEN
Frederiksborg breeding association

Welcome to the FHF!

We are a breeding association with a great passion for the development of the breeding and capacity in use of the Frederiksborghorse.

The Frederiksborghorse is a living piece of Danish cultural history. We wish to maintain but also produce a horse qualified for multiple disciplines at all levels.

In the FHF we wish to make room for all people and disciplines. The Frederiksborghorse is known for its versatility, pride and willingness to work. We wish to represent those characteristics in our association as well, as a strong community among users, breeders and owners of the Frederiksborghorse.

History of the Frederiksborghorse

The Danish Frederiksborg breed was founded by the royal Danish kings Frederik II and Christian IV, who collected the best horse- and breeding material from the European royal stud farms between late 1600 to 1800 to produce a horse that could be used both in war and by the king and his court. In the 1700s, the royal Danish horses were famous all over Europe for its noble bloodlines and elegant appearance. The breeding was managed at the royal stud farm at the Frederiksborg castle located north of Copenhagen.

Today, the breed is organized by the Frederiksborghorse breeding association (FHF)

” We wish to spread the word of the Frederiksborghorse being a beautiful, hardworking, honest horse with good exterior and an excellent offer as your next horse.”

Our visions

In FHF we wish through a strong and positive community and teamwork among breeders, riders and the association, to develop and spread interest for the breed and its qualities in Denmark such as in the rest of Europe and the world.

We wish to spread the word of the Frederiksborghorse being a beautiful, hardworking, honest horse with good exterior and an excellent offer as your next horse.
